RESEARCH EXPERIENCE

2014-present

Betterment Labs, Carleton University.

Supervisor: Dr. Michael J. A. Wohl

Postdoctoral Research Fellow

My research is focused in two areas. The first area examines the link between intergroup emotions and prejudice. The second area examines transdiagnostic factors that proliferate and maintain health compromising behaviours. I am also a member of the Gambling Research Exchange and Training (GREaT) hub in which we provide gambling-oriented knowledge translation services and training to Gambling Research Exchange Ontario (GREGO).

2013-2014

Eating Disorders Clinical and Research Program, Massachusetts General Hospital/Harvard Medical School.

Supervisors: Drs. Kamryn T. Eddy and Jennifer J. Thomas

Postdoctoral Research Fellow

My research focused on the link between overvaluation of body shape/weight and engagement in maladaptive weight-control behaviours. I was also involved in two other research projects. The first examined the 22-year weight trajectories of the women with eating disorders. The second was a meta-analysis of the link between therapeutic alliance and outcome in eating disorders.

2008-2013

Social Psychology Laboratory, Concordia University.

Supervisor: Dr. Michael Conway

Doctoral student

My doctoral research focused on the link between university students' attachment to their social class background and their expectations of upward social mobility via their studies.

2011-2012

CBT Unit, McGill University Health Centre, McGill University.

Supervisor: Dr. Gail Myhr

Graduate Research Assistant

Conducted statistical analyses for a treatment study investigating change in attachment styles during cognitive-behavioural therapy among patients with depression and anxiety disorders.

2011-2012

Adult Development and Ageing Laboratory, Concordia University.

Supervisor: Drs. Dolores Pushkar and Karen Z.H. Li

Graduate Research Assistant

Conducted statistical analyses for the Concordia Longitudinal Retirement Project. The first project investigated the predictors of cognitive function among recent retirees. The second project investigated how family-status (having children or not) was related to fluctuations in life satisfaction and well-being over time among recent retirees.

2005-2008

Social Psychology Laboratory, Concordia University.

Principal supervisor: Dr. Michael Conway

Co-supervisors: Drs. Homa Hoodfar and Arang Keshavarzian

Master's student

Master's research project focused on predictors of collective action.

2004-2005

Correctional Services of Canada, Ville-Marie Parole Office, Montreal, Canada.

Supervisor: Dr. Jeffery Drugge

Undergraduate Research Assistant

Worked with a team of researchers to evaluate a new motivational-based intervention training program for frontline correctional workers.

TEACHING AND CONSULTING EXPERIENCE

Co-supervision of students' research

2015-2017, Sara K. Lidstone. *Does excessive punishment influence collective guilt?* MA student, Carleton University.

2014-2015, Travis Kirkwood. *Antecedents of collective guilt.* BA student, Carleton University.

2013-2014, Helen B. Murray. *22-year weight trajectories of women with eating disorders.* BA student. Massachusetts General Hospital.

2013-2014, Tiffany A. Graves. *Meta-analysis of the relationship between therapeutic alliance and outcome in eating disorders.* MA student, Massachusetts General Hospital.

Teaching

2017 (July-August)

Carleton University, Ottawa, Canada.

Instructor: Teaching theory and application of modern missing data methods – graduate level.

Designed and sole-taught this graduate course on missing data theory and the application of modern missing data methods (Maximum Likelihood and Multiple Imputation) in the contexts of linear regression, moderation, and mediation.

2016-2017

Carleton University, Ottawa, Canada.

Instructor: Teaching statistical methods – tutorials.

Provided several tutorials over the 2016-2017 academic year to faculty members and their students in the Social/Personality/Health area on power analysis and missing data handling. Thus far, I have provided three tutorials:

Tabri, N. (2017, March 31). *Introduction to missing data theory and analysis*. Carleton University, Ottawa, ON.

Tabri, N. (2016, November 25). *Power analysis to determine sample size for a single mediator model using Monte Carlo simulation in Mplus*. Carleton University, Ottawa, ON.

Tabri, N. (2016, October 7). *Power analyses using G*Power: t-test, correlation, and linear regression*. Carleton University, Ottawa, ON.

2010-2011

Concordia University, Montreal, Canada.

Instructor: Teaching theory and application of structural equation modeling – graduate level.

Designed and sole-taught this course on the theory and application of structural equation modeling to a senior doctoral student.

2008-2010

Concordia University, Montreal, Canada.

Teaching Assistant: Advanced course on statistics for psychology – undergraduate level.

Designed all materials for the applied section of the course and taught the applied section of the course (i.e., correlation, *t*-tests, ANOVA, and regression).

Guest lectures in undergraduate courses

Tabri, N. (2011, May 30). *The self in social context: Self-presentation and impression management*. Concordia University, Montreal, QC.

Tabri, N. (2010, November 18). *Statistical analysis II: Theory-driven and data-driven methods in regression analysis*. Concordia University, Montreal, QC.

Tabri, N. (2008, February 6). *Fundamentals of social psychology: Attitudes and attitude change*. Concordia University, Montreal, QC.

Consulting

2016-present

GamRes Limited, Hawkesbury, Canada.

Statistics Consultant

Assisted members of the research team in the development of the Positive Play Scale with research methodology and statistical analyses.

2009-2010

Centre for Research in Human Development, Concordia University, Montreal, Canada.

Statistics Consultant

Assisted faculty and student members of the centre with statistical analyses for their research.

PROFFESIONAL DEVELOPMENT

2017 (June)

Canadian Knowledge Mobilization Forum

Three-day conference on knowledge translation and mobilization, Ottawa, Canada.

Attendee.

2017 (May)

Foundations of Bayesian Inference and Analysis

One-day workshop at the University of Ottawa, Ottawa.

Instructor: Alexander J. Etz (University of California, Irvine).

2016 (October)

Knowledge Translation Training Series: Developing and Implementing an Evaluation Plan for Your Hub

Half-day workshop offered by Gambling Research Exchange Ontario (GREO).

Instructor: Anne Bergen (GREO).

2016 (May)

Methods for Scoping Reviews (session 2)

Online workshop offered by the Center on Knowledge Translation for Disability and Rehabilitation Research.

Instructors: Dr. Chad Nye and Dr. Oliver Wendt (Purdue University).

2016 (April)

Introduction to Scoping Reviews and Synthesizing Evidence (session 1)

Online workshop offered by the Center on Knowledge Translation for Disability and Rehabilitation Research.

Instructors: Dr. Chad Nye and Dr. Oliver Wendt (Purdue University).

2011 (January)

MPlus Workshop: Latent Growth Curve Modeling

One-day workshop at the Centre for Research in Human Development, Montreal, Canada.

Instructor: Dr. Jonathan B. Santos (Concordia University).

2009 (November)

Missing Data: Why it's a problem and how these problems can be solved

One-day workshop at the Centre for Research in Human Development, Montreal, Canada.

Instructor: Dr. Todd D. Little (University of Kansas).
